client	Bosch
our services	<ul style="list-style-type: none"> <li>• Sustainability concept</li> <li>• Energy and climate concept</li> <li>• Energy simulation</li> <li>• Daylight simulation</li> <li>• CFD Simulation</li> <li>• Life Cycle Assessment (LCA)</li> <li>• Contractor requirements</li> </ul>
project data	5,415 m <sup>2</sup> GFA (Canteen)
project duration	2023 – 2024

### Transform the projects with Sustainability Consulting Based on DGNB Standards!!!

Unlock the potential of sustainable building practices with our specialized sustainability consultant services, guided by the internationally recognized DGNB standard. Whether you're designing, constructing, or renovating, our team of experts will help you integrate sustainable strategies that optimize energy use, minimize environmental impact, and improve the overall quality of your buildings.

By adhering to DGNB's rigorous sustainability criteria, we ensure your project meets the highest standards for environmental, economic, and social sustainability. From the earliest planning stages to final certification such as sustainability concept, energy & climate concept, energy/daylight/CFD simulation, LCA including contractor requirements etc.

EGS-plan provide tailored advice and strategies that enhance performance and reduce long-term costs while securing a green future for your project development.
